

State	Partnering Translational Initiative	Description
AL	University of Alabama, Birmingham  REACH CEED (2004)	AL Cooperative Extension is a state partner and member of the REACH CEED Alabama Breast and Cervical Cancer Control Coalition
FL	Clinical and Translational Science Institute at the University of Florida (CTSA) (2009)	Collaboration reported among 12 of the university's 16 colleges and extension offices in Florida's 67 counties; CBPR is valued as an approach to community engagement
IN	Indiana Clinical and Translational Science Institute – Indiana School of Medicine, Purdue, Notre Dame (CTSA) (2008)	Community Health Engagement Program;  Purdue Extension serves on Community Advisory Council
KY	University of Kentucky Center for Clinical and Translational Science (CTSC) (2006)	KY Cooperative Extension's Health Education through Extension Leadership (HEEL) program partners with the CTSC to conduct CBPR, reduce the chronic disease burden, and promote health
MN	University of Minnesota Healthy Youth Development Prevention Research Center (comprehensive PRC) (1996)	Community Partnered Research: U of M Extension is listed as a Community Partner  Goal: to link public health agencies and community-based organizations
NM	University of New Mexico Clinical and Translational Science Center (CTSA) (2010)	Center is based in the UNM Health Sciences Center, which houses a Community Health Extension Center and Health Extension Rural Offices; Both list Cooperative extension as an active partner
NV	Sanford Center for Aging, University of Nevada, Reno (1993)	Center collaborated with U of NV Extension to create Nevada Care Connection: Website helps seniors and caregivers to understand available social services

NY	The Clinical and Translational Science Center Consortium at Weill Cornell Medical College (CTSA)	<p>Cornell Cooperative Extension-NYC is part of the multi-institutional consortium; it leads the Community Engagement and Outreach Program</p> <p>Goal is to share inter-institutional resources to efficiently move translational research from bench to bedside and to the community</p>
	Cornell Institute for Translational Research on Aging – CITRA (Roybal)	<p>Lists Cornell Cooperative Extension-NYC as a Community Partner</p> <p>Center Goal: To cultivate infrastructure and partnerships among Cornell social science, clinical, and mental health researchers, and with NYC community-based practitioners</p>
OH	The Ohio State University Center for Clinical and Translational Science (CTSA) (2008)	<p>Center researchers have partnered with OSU Extension on specific projects</p> <p>Lists OSU Extension under Community Engagement Resources</p>
	Ohio State Prevention Research Center (Developmental PRC) (2010)	<p>Center researchers have partnered with OSU Extension on specific projects</p> <p>Lists OSU Extension under Community Engagement Resources</p>
WV	West Virginia University Prevention Research Center (Comprehensive PRC) (1993)	<p>Some local and regional representatives of the West Virginia University PRC Community Partnership Board work at WVU Cooperative Extension offices</p> <p>Goal: To expand proven teen smoking cessation program to achieve statewide dissemination</p>

\*Some of the 12 partnerships may primarily serve to facilitate community recruitment rather than to enhance collaboration on community-engagement research projects

\*Other state extension systems that are represented on translational initiatives' Community Advisory Councils or Community Partnership Boards may have greater influence / better power sharing

\*Only two states demonstrated more seamlessly integrated extension and translational initiatives (KY, NM); these should be examined further to identify any benefits linked specifically to extension involvement
