I. Distribution Requirements

A. Introductory Biology Lecture and Lab

Starting in Fall 2010, AP credit cannot be used to fulfill the introductory biology requirement for this major.

Choose one of the following two sequences (A.1. OR A.2.):

A.1. BIOG 1500 Investigative Lab (F/S, 2 cr) AND

Choose two out of three from the following lecture options:

(a) BIOG 1350 Cell and Development (F/S, 3 cr)
(b) BIOG 1440 Comparative Physiology (F/S, 3 cr)
(c) BIOG 1610 Ecology and the Environment (F/S, 3 cr)

OR*

BIOG 1780 Evolution and Diversity (F/S, 3 cr)

*Cannot take both BIOG 1610 and BIOG 1780 to fulfill this requirement

A.2. BIOG 1105 (F, 4 cr) and 1106 (S, 4 cr) Introductory Biology

B. Social Sciences

6

C. Humanities

4

No language credit in this area. (See: I.F.)

BSOC 2051 Ethical Issues in Health and Medicine OR

BSOC 2061 Ethics and Environment

D. Written Communications

6

Must be First-Year Writing Seminars.

MUST BE COMPLETED DURING FIRST 2 SEMESTERS

E. Quantitative and Analytical

7-8

a. Either Statistics or Calculus must be taken at Cornell unless you have earned a score of 3 or higher on AP Calculus BC.

b. Once the above requirement is met other AP credit from Calculus AB (a score of 3 or higher) or Statistics (a score of 4 or 5) may be applied to the Quantitative and Analytical requirement if the content is not overlapping.

1. Calculus:

   Choose one of the following:
   
   MATH 1106, MATH 1110, MATH 1120 OR
   
   Any higher-level calculus course

2. Statistics:

   Choose one of the following:
   
   AEM 2100, BTRY 3010, ECON 3190, ILRST 2100, MATH 1710, PAM 2100, PSYCH 3500

F. Additional requirements

Courses from any natural science, social science, humanities, or mathematics courses can be counted here for remaining credits.

II. Requirements in the Major

65-82

II. A. Biology Foundation Breadth**

Three courses from three of the following areas:

Evolutionary Biology

BIOEE 1780 Evolution and Diversity (formerly BIOEE 2780)

Biochemistry, Molecular, and Cell Biology

BIOMG 3300 Principles of Biochemistry: Individual Instruction

BIOMG 3310 Principles of Biochemistry: Proteins and Metabolism

NS 3200 Introduction to Human Biochemistry

BIOMG 3330 Principles of Biochemistry, Lectures

BIOMG 3350 Principles of Biochemistry: Proteins, Metabolism, and Molecular Biology

Genetics and Development

BIOMG 2800 Lectures in Genetics

BIOMG 2810 Genetics

PLBR 2250 Plant Genetics

NTRES 2830 Genetics for Population Biologists

Animal Behavior

BIONB 2210 Neurobiology and Behavior I: Intro to Behavior

(summer BIONB 2213 or BIONB 3290)

Neurobiology and Behavior

BIONB 2220 Neurobiology and Behavior II: Intro to Neurobiology

Biological Diversity

BIOL 2410 Introductory Botany

BIOMI 2900 General Microbiology Lectures

BIOEE 2740 The Vertebrates

BIOEE 3730 Biology of Marine Invertebrates

BIOEE 4500 Mammalogy, Lectures

BIOEE 4700/4701 Herpetology, Lectures and Laboratory

BIOEE 4750 Ornithology

BIOEE 4760 Biology of Fishes

ENTOM 2120 Insect Biology

PLPA 3010 Biology and Management of Plant Diseases

PLPA 3090 Fungi

(summer, BIOSM 3080, 3100, 3210, 3740, 3770, or 4490)

Physiology and Anatomy

BIOAP 3110 Introduction to Animal Physiology

NS 3410 Human Anatomy and Physiology
** Students in Human Ecology may not use NS 1150 to meet the Biology Foundation Breadth requirement. If NS 1150 is taken it will count towards the 43 Human Ecology credit requirement and can be used as part of II.D. Theme. Human Ecology students building upon Nutritional Science should major in HBHS or NS.

** Credits **

II. B. Biology Foundation Depth  
One biology course for which one of the biology courses in II.A. is a prerequisite. (Human Ecology students cannot use NS 1150 in II.A. for the purpose of defining II.B. Biology Foundation Depth course.)

II. C. Core Course  
Should be completed by end of junior year.  
BSOC 3011 Life Sciences & Society OR  
PHIL 2860/STS 2861 Science and Human Nature

II.D. Theme  
Theme areas are Behavior, Biology, and Society; Biology and Health Policy; and Health and Human Performance

Five courses related to a theme selected by the student; must be above 1000 level, at least 3 credit hours, and taken for a letter grade.

Two courses from: Natural sciences issues and/or Biology elective (course with significant biology content)

Two courses from: Humanities/Social Sciences electives

One course taken senior year: Senior Seminar; courses change yearly

II. E. Social Sciences/Humanities Foundation  
One course from each of two areas:  
(Approved courses are in Courses of Study under Biology & Society)  
History of Biology/History of Science  
Philosophy of Science  
Politics of Science  
Sociology of Science  
Science Communication

III. Electives  
Variable

IV. Physical Education  
Physical education does not count toward college and university minimum credit requirements for full-time status.

Total Credits (exclusive of PE) 120

---

** College Requirements: **

- Students are NOT required to complete 9 credits in Human Ecology departments outside the major.
- Students must complete a minimum of 43 HUMEc credits. HUMEc courses are DEA, FSAD, HD, NS, PAM, or HE 3000-level or higher. BSOC courses are not considered HUMEc.
- Pass/Fail Courses [S/U]  
  - S/U grading option may NOT be used for any required course [i.e., distribution requirements in Category I or major courses in Category II] unless it is the only grade option offered for those courses.  
  - S/Us MAY be used for electives in Category III.  
  - Students may apply no more than 12 credits of S/U towards graduation requirements. If a required course is only offered S/U, it will not count towards this limit. Students may take more S/Us if they choose, but the additional credit will not be applied towards graduation.  
  - The deadline for changing grade options is 3 weeks after the start of classes, the same as the “add” deadline.
- ** Special Study Courses [4000, 4010, 4020, 4030] **  
  - A total of 12 credits of special study course work from Human Ecology or other colleges will count towards the 120 graduation credit requirement. [Additional credits can be taken but will not be applied.]  
  - A maximum of three credits of 4000-4020 (not including 4030) may count towards the “credit outside the major” category as long as the special study is in a department outside the student’s major.  
  - Students cannot TA (4030) the same course for credit more than once or take and TA the same course simultaneously. 4030 does not fulfill any requirements towards the major. Registration for 4030 may not exceed 5 credit hours per semester.
- Students must complete 120 credits overall, exclusive of physical education and “00” courses.
- Elective credits can be earned in Human Ecology or elsewhere.

---

** Pre-Med Students only: **  
(Not required for graduating from Human Ecology with a Biology & Society Major).

** Additional Credits **  
24-28

** Chemistry… **
CHEM 2070 – 2080 General Chemistry AND  
One of the following sequences:  
CHEM 3570 – 3580 Organic Chemistry Lecture & 2510 Lab  
CHEM 3590 – 3600 Lecture and 3010 Lab  
CHEM 3590 – 3600 Lecture and 3580 Lab  
CHEM 3590 – 3580 Lecture and 3010 Lab  
CHEM 3590 – 3600 Lecture and 3580 Lab  
CHEM 3590 – 3580 Lecture and 3010 Lab  
CHEM 3590 – 3580 Lecture and 3010 Lab

** and Physics **
PHYS 1101 – 1102 General Physics OR  
PHYS 2207 – 2208 Fundamentals of Physics
